

Intradistrict Transfer Application

If you live within the boundaries of the Adelanto Elementary School District and want to request a transfer to attend a school other than your school of residence within the District, you must submit an Intradistrict Transfer Application. Students who have a valid Intradistrict Transfer Application to attend a specific school may continue attendance in that same school without the need to re-apply annually. When the student matriculates, or there is a change of school placement, a new Intradistrict Transfer Application is required.
